VARSITY LETTER RECIPIENTS

Relay became a varsity sport in 1902. The University fielded a relay team each season until 1925, with the exception of the 1917-18 season when the sport was discontinued due to World War One. Construction of the Memorial Fieldhouse in 1926 set the stage for an expansion of the relay program into a full-fledged indoor track program. From that point on, most team members received a varsity "M" for indoor track and are listed in the section on indoor track. However, some team members continued to compete in relay races only and received a varsity "M" in relay, while others competed both in relay races as well as indoor track events and received a "combination" letter designating both activities. That category was discontinued after the 1937-38 season. Individuals who received the "combination" letter are listed in this section following the names of those who received the "M" in relay only. It should be further noted that members of indoor track teams continued to compete in regional relay events, primarily the Boston Athletic Association Games, until the 1958-59 season.

(Abbreviations: d., deceased (known to be at the time this section was prepared) and date; d. u., date unknown. Season or seasons listed following each name indicates individual earned a varsity letter award in each season.)
