

WOMEN'S SKIING

Although many excellent skiers represented the University during its 10-year history, the program suffered from weak budgets and the absence of a local first-class training facility that would provide the women with an opportunity to improve their talents. The first team to be formally supported by the University appeared in the winter of 1973-74; the last in the 1981-82 season. A program highlight was a fourth place finish in the national championships in 1977.

YEAR BY YEAR MEET RESULTS

Due primarily to weather conditions, the number of meets in which Maine competed varied from season to season. It was difficult to locate results of all competitions, especially individual placements, due either to meager media coverage or the scarcity of University records. Results shown of meets between 1973 and 1976 are probably incomplete; those from 1976-82 are believed to be reasonably complete. Those that were located indicate the high level of competition faced by Maine skiers who competed annually against the best teams in the East. Skiers who finished 20th or better in each event or were the first two UM finishers (where results were located) are listed in multi-team and winter carnival competitions.

Abbreviations: AC, alpine combined; CC, cross country; DH, downhill; GS, giant slalom; S, slalom, WC, winter carnival.

1973-74

Maine competed in a series of meets primarily involving other Maine colleges: Bates, Bowdoin, Colby, Westbrook and UMF. Maine prevailed in four of the five meets. Top performances were recorded by Leslie Miller and Lisa Levesque in the slalom and giant slalom.
