AMERICA EAST

Creation of the North Atlantic Conference in 1989, later re-named America East, provided a new post-season tournament opportunity for Maine's women's tennis team. Charter members were Boston U. and the Universities of Hartford, Maine, New Hampshire and Vermont. The U. of Delaware and Drexel U. became members in 1991, Hofstra U. in 1994, and Towson U. in 1995.

Results of the annual tournament during seasons in which Maine was a member are listed below. The conference champion was determined on the basis of dual matches in 1989 and 1990 and points earned at a conference tournament in succeeding seasons.

*Conference Champion

	1989	1990	1991	1992	1993	1994	1995
Boston U.	2-0*	2-0*	34*	34*	---	54*	59*

1978 WOMEN'S TENNIS TEAM

Front Row, left to right: Amy Stanton, Sara Magrane, Elizabeth Gallo, and Mona Reynolds. Back Row, left to right: Rosemary Redmond, Pamela Cohen, Kathie Curnick, Laurie Page, Kathleen Gwynn, Kristen Everett, Tona Buros, and Coach Eileen Fox.

ACADEMIC SUPPORT AND LIFE SKILLS PROGRAMS

ACADEMIC SUPPORT

The University of Maine is committed to offering a comprehensive academic support program in conjunction with other University of Maine resources which can assist student-athletes in succeeding in their studies. Students must work just as intensely in the classroom as they do on the court, field, or ice in order to excel. Services include a variety of progressive and proactive support programs which can assist the student-athlete in developing academically, professionally and personally throughout their college years.

Once on campus, first year student-athletes participate in orientation programs covering athletics, eligibility, and resources available on campus. These programs draw together many campus elements and provide opportunities to discover all that Maine has to offer both academically and culturally.

Academic Support Counselors provide:

- Discussion of goals and academic plans
- Ongoing academic eligibility, degree progress and NCAA certification
- Consultation for class registration
- First-year orientation programs
- Tutoring services
- Academic progress checks
- Individual meetings
- Monitored study hours

Academic Progress Monitored. The Athletic Academic Counseling staff monitors student-athletes' academic progress throughout their college careers to ensure academic success in their chosen degree programs. To enhance knowledge of progress throughout the semester, academic progress reports are sent to course instructors twice each semester. In addition, student athletes report grades regularly to their assigned counselor and receive information regarding their status in meeting University of Maine and NCAA academic requirements.

Tutoring Services. The Tutor Program provides free tutors for all University of Maine students who need academic assistance in 100 & 200 level courses. The Tutor Program's role is to help students "learn how-to-learn" course material and how to utilize the resources available on campus. Athletic Tutoring is also available through Academic Support Services as a supplement to class lecture and readings. Peer tutors meet student-athletes once or twice weekly to review course material, answer questions and prepare for upcoming exams.

Services for Students with Disabilities. The University of Maine Disability Support Services facilitates the education of any University of Maine student with diagnosed physical or

learning disabilities by providing a point of accommodation and services to enhance success. In collaboration with these services, student-athletes receive additional support from a learning disability specialist on the Academic Support staff. Student-athlete referrals are made on an individualized basis.

Sezak Academic Center. In addition to several computer clusters available to all University of Maine students, student-athletes have exclusive use of computers (PC and Macintosh) in the Sam and Ethel Sezak Academic Center. The facility was renovated in 2004 and air conditioning added in 2006. Computers in this facility are networked to the Fogler Library, campus intranet, and the Internet. Student-athletes take advantage by utilizing the Academic Center for obtaining required study table hours. In addition, ten IBM-compatible laptop computers are available to student-athletes to use when traveling to athletic competitions.

Academic Achievement. In addition to the many conference and national honors, each spring the athletic department honors Maine's Scholar Athletes, those student-athletes earning a 3.0 minimum GPA for the year. In 2006, a total of 172 student-athletes earned this distinction. In addition, 63 first-year students were honored as "Rising Stars" for earning a 3.0 or better in their first semester at Maine. The total of 239 honorees is the largest group in the history of the program, representing over 50% of the students who participate in Intercollegiate Athletics at Maine. In 2004, Maine was awarded the America East Academic Cup, representing the highest GPA among member schools with a 3.12 overall average. In 2005, Maine again posted a 3.12 overall GPA, finishing second in the conference. In 2006, Maine had a 3.11 overall GPA, again good for second in the conference.

LIFE SKILLS

The goal of the life skills program is to assist student-athletes as students, citizens and aspiring professionals.

Life Skills Seminars. Student-athletes work with the Life Skills Coordinator and campus members to design and participate in life skills workshops covering a variety of areas: career development, team building, alcohol and drug education, and nutrition.

Multicultural Programs. The University of Maine and its Athletic Department have a commitment to supporting diversity within the campus community. A liaison relationship involving full-time staff members has developed between the Office of Multicultural Affairs and the Department of Athletics to promote an appreciation of diversity and to serve the student-athletes of different cultures.

Student-Athlete Advisory Committee. This organization is composed of members from each of the intercollegiate sports teams and meets with athletic and academic administrators regularly to help streamline and promote efficient communication between the athletic department administration and the student-athlete population. SAAC acknowledges the unique contribution student-athletes provide to the collegiate and community climate, and remains committed to positive involvement and excellence in each.

Outreach. Opportunities exist through the Community Outreach Program for student-athletes to gain public speaking experience while they give back to the community. Student-athletes speak at numerous schools and community groups, including the "Winter Kids Program" which encourages 5th, 6th and 7th graders to commit to fun and healthy winter lifestyles.
